

# MY SPIRIT. MY SKI.

ORIGINAL+ is one of the newest Austrian ski manufacturers, based in Salzburg-Bergheim. We build custom skis – with the clear goal of turning every customer into a better skier.

Thanks to our intelligent configuration software ORIGO that calculates the ideal individual ski configuration from personal data, ORIGINAL+ skis are precisely adapted to the skier's build, skiing style and technique. They are one-of-a-kind products, manufactured in our state-of-the-art production facility in Salzburg-Bergheim, Austria. We sell exclusively ex-factory – direct-to-consumer – with unbeatable value for money. ORIGINAL stands for "in its own way, creative"; „+“ stands for the positive, your advantage, and a "plus" of individuality.

ORIGINAL+ was founded in 2018 and the head office in Salzburg is currently home to 10 employees. In June 2022, we will move to our new ski manufactory in Salzburg-Bergheim, where we continue to build skis at the highest technological level.
